

A message from Mr DO
(Where can one be treated with the Hai Thuong method)

Four years ago, I took a partial retirement, nevertheless, I still accept patients suffering from cancer cases and difficult diseases such as rheumatoid arthritis, fibromyalgia, neurodegenerative diseases. If you are affected by such a disease and require care that is parallel and complementary to your traditional hospital treatment, you can contact me at the following address and telephone number:

19 Avenue de l'Europe, 69140 Rillieux la Pape, France // Tel: +33 478 973 782 (11am to 1pm except Monday)

DO Trong Lê

The Hai Thuong method often yields effective and fast results. However, it is not a miracle solution to all problems and conditions. The aim of our school is to transmit our experience acquired in nearly fifty years of practice of Oriental Medicine to the new generations and also to reveal its hidden values which are simple, direct and logical.

Through our school, you will find a new vision of Yin/Yang, whose judicious application brings positive results even for serious diseases including cancer.

The testimonials you can read on our website highlight the effectiveness of our approach and are only the first fruits.

This training course is open to doctors and qualified paramedics. We want to involve more scientists who will participate in our research work to share all these values with modern science and the general public.

With gratitude, yours sincerely,

Do Trong Lê and all members of the Hai Thuong School of Oriental Medicine
